Flammability	: Not applicable
Touch dry	: 30 min. (At 30°C)
Hard dry	: 24 hours (recoat)

SURFACE PREPARATION

For old surfaces

Strip all the old paint from the surfaces and wipe it with a cloth. Sand it with emery paper 80/100 a wipe clean. Apply one coat of sealer and let it dry for up to 8 hours. Smoothen the surface by applying wall putty to fill all dents. Sand the surface again, with emery paper (200/220) and wipe clean. Apply the second coat of sealer and let it dry for up to 8 hours. Sand the surfaces with emery paper (size: 320) & wipe again.

For new surface

Strip all the loose particles from the surface via wire brushing and rub the walls properly with stones. Then wipe down the surface. Wash the surface with water & let it dry properly. Accordingly, the steps are recommended for the previously painted surfaces.

APPLICATION METHOD

For design application

Step-1

Apply Moon Star Luxury High Sheen (LHS) two coats 8 hours intervals as a base coat in the desired color.

Step -2

Illusion desired shade to use by application tools directly on the previously prepared surface without dilution. Use the tools specified in the recommended manner to create the design of choice on the wall.
